

An Introduction to KC S2S

PRESENTED BY NOAH CONGELLIERE

What is KC S2S?

Cayuse is a web-based, system-to-system add on to KC Pre-Award that allows for the preparation, validation, and direct submission of proposals to Grants.gov and Research.gov.

The screenshot displays the Evisions Research Suite interface. At the top, there is a navigation bar with tabs for Overview, Opportunities, Proposals, People, Institutions, Reports, and Admin. Below the navigation bar, the Evisions Research Suite logo is visible. The main content area is titled "USC Training Instance" with the version number "Cayuse424/v6.4". A list of menu items is shown, each with an icon and a yellow arrow pointing to it:
